# GENERAL STATISTICS

	Mills.	North	South	Total	1939 1940 Total
Half days in session	360	360	360	360	360
Half days lost.	0	0	0	0	0
No. pupils registered	36	26	26	88	99

Av. tardinesses per pupil	.57	.39	2.04	.97	.64
No. visits School Board	2	6	2	10	15
No. visits Superintendent	21	20	18	59	66
No. visits citizens	19	75	28	122	221

From the above table of statistics it will be seen that each school had the 360 half day sessions required by law. The average membership has decreased. The percent of attendance is lower than in either of the two years previous. The amount of tardiness per pupil has increased. We hope that every parent will make a stronger effort to keep the attendance of his children regular and to have less tardiness. The number of different pupils registered in the district was 88. At Warner Graded School, 17 pupils from Sutton were registered. In nearby high schools 20 more attended. This makes 125 pupils residing in the district and attending public schools, 13 less than last year. During the summer of 1941, the old chemical toilets at the Mills and North schools were replaced by septic toilets which require no chemical. Necessary alterations were made to locate the toilets more favorably than formerly.

We hope that the school board and parents of the pupils of the district will keep in mind the distinct advantages to be obtained by reclassifying the children in the schools so that only two or three grades are taught in each school. The net additional cost of transportation would be only a few hundred dollars.

In closing, we wish to thank the board and citizens of the district for their interest and assistance in securing the best possible schools for the amount of money expended.

## SHORTAGE OF TEACHERS

We wish to direct the attention of the board and the parents of pupils in the district to the serious shortage of teachers. During the past two years, this has been becoming more acute, particularly among elementary teachers. Now, it is greatly accentuated and is extended to high school teachers. The reasons for this are: (a) Large numbers of young men have enlisted in the army or navy. (b) Others, both men and women have gone and will go to work in essential industries where they receive much higher wages or salaries than they would in teaching. The latter will be followed by others who are now teaching, unless higher salaries are paid. Prices are going up, and the value of the dollar is coming down. The cost of living has increased eleven percent since August, 1939. Food prices are up nineteen percent. A dollar at the grocers is worth only about eighty cents.

Twelve million factory workers have already received an increase of 30% in average weekly earnings. Farm products have gone up 45%. Teachers' salaries, however, remain the same. Prices by the end of the year 1942 will in all probability be 25% higher than in August, 1939. Thus the teachers salary of \$1,000.00 will be cut to \$750.00. To have purchasing value equal to that of 1939, it should be advanced to \$1,250.00. This will, of course, mean an increased budget and higher taxation, but to meet this, incomes of the people in general are rising fast-

er than the cost of living. Property is worth more.

At the coming district meeting, it will be necessary for the people of the community to choose whether they will jeopardize the welfare of their children through the loss of their best teachers, or whether they will increase the salaries of these teachers enough to hold them in the district. Already several of the teachers in Supervisory Union No. 26 have received very attractive offers to teach in neighboring states or in the larger towns and cities of New Hampshire.

The schools are our long-time line of defense. It is the responsibility of the people to strengthen rather than weaken this line.

Respectfully submitted,  
JOHN A. SINCLAIR,  
Superintendent of Schools.
